INSPECTION & CONSULTING

## About Us

Guzi-West Inspection and Consulting, LLC (Guzi-West) is a firm specializing in conducting hazardous material investigations including, but not limited to, asbestos, lead-based paint, contaminated soils, naturally occurring asbestos (NOA), mold, methamphetamine, contaminants associated with illegal marijuana grows, silica, polychlorinated-biphenyls (PCBs), smoke damage, waste characterization and bacteria.

Our team also frequently prepares abatement specifications, compliance plans, operations and maintenance plans, oversees subsequent abatement work, and performs project clearances to verify scope of work has been correctly completed. The Guzi-West team has 30+ years of experience in hazardous material consulting and have a range of state and federal certifications including Certified Asbestos Consultants (CAC), Certified Site Surveillance Technicians (CSST), CDPH Certified Lead Inspector/Assessors, Certified NIOSH 582 eq., Certified IAQA Mold Assessment Professionals, and Certified Radon Measurement Professionals. In addition, all Guzi-West field staff are 40-hour Hazwoper Certified. Our goal is to offer quality technical consulting services and simple solutions to complex problems.
